---

At Quickstep, it is understood that creating a culture that values inclusion, recognises the unique contributions of people, and builds capability, critical to success. Diversity is about recognising and valuing the different knowledge, skills, backgrounds and perspectives that people bring to their work – regardless of whether those differences are based on age, gender, ethnicity, sexual orientation, social background or other factors.

Quickstep's workforce diversity builds organisational capability through the differing perspectives that individuals bring to the workplace which in turn support innovation, creativity, and overall productivity. This leads to better decisions making to achieve the organisation's goals and its objectives and delivers on excellence to our customers and shareholders.

Quickstep is committed to diversity and equity for all and this is supported throughout the employment lifecycle.
